ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING AND CONSTRUCTION

INDEX

VOLUME 127 • JULY-DECEMBER, 1941

COPYRIGHT 1942 BY McGRAW-HILL PUBLISHING COMPANY, INC., 330 W. 42nd ST., NEW YORK, N. Y.

July 3 ..... 1– 54
July 10 ..... 55– 70
July 17 71–122
July 24 123–138
July 31 139–184
August 7 185–200
August 14 201–254
August 21 255–270
August 28 271–318
September 4 319–334
September 11 335–388
September 18 389–402
September 25 405–452
October 2 453–470
October 9 471–524
October 16 525–542
October 23 543–612
October 30 613–628
November 6 629–682
November 13 683–700
November 20 701–754
November 27 755–772
December 4 773–836
December 11 837–854
December 18 855–900
December 25 901–916

A

Aeronautics

Airplane plants:

Boeing plant addition, Seattle, uses roof trusses of 300-ft. span *652
Boeing plant addition started at Wichita, Kansas n*390
British Columbia Boeing Aircraft plant built of timber *482; e481
Ford bomber plant to cover 58.5 acres, Ypsilanti, Mich n*186
Ford Motor Co. airplane plant at River Rouge *158
Fort Worth, Okla. bomber assembly plant *601
Fort Worth bomber plant framework completed n*760
Goodyear Aircraft Corp., Akron, defense plant rushed n*458
Glenn L. Martin plant roof truss innovations *729
Packard adds a Rolls-Royce plane engine plant *354
Packard dedicates Rolls-Royce airplane engine plant n*203
Republic Aviation Corp. to make Army planes n*614
Tulsa, Okla. and Fort Worth bomber assembly plants *601
Wright Aeronautical, Cincinnati, O., sets new size record with airplane engine plant *16
Airplane plants—also see Buildings

Airports:

Appropriations for defense work on civil airports (list) 191
Appropriations to Civil Aeronautics Authority for airports n7
Ashville-Henderson runways extended n*274
Avondale Flying School runways widened n*322
Baton Rouge runway paved with loess asphalt mix *875; e865
Boeing Field, Wash. runway and taxiway paving (unit prices) 138
Burbank, Calif.—steel being placed for largest service hangar n*857
California-Hamilton and March Fields instrument buildings *593
Canadian airports now ready for U. S. use n474
Chicago airport enlarged by railway track removal n*411
Cities acquire new airport control privileges 716
Civil Aeronautics Authority requests funds for airports n693
Concrete for airport paving shows increased use 371
Corpus Christi, Tex. Navy training station construction *90; e80
Des Moines hangar designed with hollow concrete girders *589
Development of airport construction. D. H. Connolly 744
East Hartford, Conn.—moving hangar building. P. M. Barnes *353
Floyd Bennett Field swamps recovered by the landfill refuse disposal method *423
Hangars of concrete with thin barrel-shell-roof design built by the Navy *786
Houston, Tex. airport paving (unit prices) 138
Improvement work of the WPA by states (table) 883
Marston, N. C.—Army lays portable runway n*625
Muroc Bombing Range runways and taxiways (unit prices) 402
New airports approved since Jan. 1 .. n72
Panama Air Depot hangars nearing completion n*323
Panama airfield engine repair shop. *574
Puerto Rico air depot supply building. *574
Quonset Point, R. I. Navy mess hall design *584
Quonset Point, R. I. station put in service n*125
Quonset Point, R. I. steel erection—error. H. M. Baker 179
Runways—tangent distances for runway intersections. J. L. Grimes, Jr. *817
Uruguay air base to receive lease-lend funds n274
Washington National Airport receives additional funds n195
Windsor Locks, Conn. hangar-repair shop for the Air Corps *580
Yakutat Bay, Alaska, runways—concreting to be protected by giant tent n*839
Appropriations for air force and for airfields n855
Parachute troop training towers at Fort Benning n*66
Wind tunnel to be built at Moffett Field n779

Air Conditioning

Economics of air conditioning and basic data for cost estimating. R. E. Cherne (Building Designers' Library) 112
Hamilton and March Fields, Calif. instrument buildings air conditioned .. *593

Air Raids and Protection

All buildings vulnerable to direct bomb hits, says H. M. Prince n906
Army engineers continue studies to provide air raid protection n391
Binger tells how Britain withstands its bombings n708
Blackout plant built by Allis-Chalmers in Milwaukee, Wis. n*685
Bomb damage in Great Britain. G. C. Richards 743
Bomb resistance of steel and concrete buildings 157
Bomb-proof shelters for studying explosives n*137
Bomb shelters for the home. Odd Albert 1711
Bomb shelters in the Philippines n*856
Bombs on British factory roofs. R. S. L. Peverley 1551
Buildings designed against bombs. Lewis, Wheeler 1343
Buildings under bombing, Great Britain. O. Bondy *214
Civilian protection organized in Canada. N. J. Howard 99
Factors in aerial bombardment protection. Wessman & Rose, *300; e281; W. L. Huber, 1479; correction, Wessman 1637
Great Britain now has 20,000,000 shelters n906
Hawaiian buildings bombed n*906
London bombed bridge replaced by repairmen *273
London builds tunnels as bomb shelters n*633
London protects offices and shops against more air raids n*472
Replanning bombed cities of Britain. G. L. Pepler 510
San Francisco builds underground garage which can be used as a bomb shelter *714
San Francisco selects buildings for air raid shelters n907
Shelters for British industrial workers n*56
Structural problems in bomb protection. Wessman & Rose *349
War on the Pacific Coast brings test of civil defense plans n*856
Aluminum—new plants and lower prices for aluminum n274; e281
American Association of State Highway Officials:
Detroit meeting n*471
New and old presidents n*546
American Public Works Association:
New Orleans meeting n*631
American Road Builders Association:
C. J. Sherlock to be new president n688
American Society for Testing Materials:
Chicago meeting n3
American Society of Civil Engineers:
Chicago meeting n543
San Diego convention n*141
American Society of Engineers ended by the Post Office Dept. as a fraud n72; e148
American Water Works Association:
Toronto meeting n*5

Aqueducts

Colorado River Aqueduct:
California water district becomes operating utility n330
Delaware River Aqueduct:
Aerator to treat the water n*473
Concrete core wall at Merriman Dam *426
Fault zones successfully passed on new water system for New York City *150; e148
Lining the world's longest tunnel *792; e784
Tunneling nearly complete n411
Key West aqueduct bonds issued n756
Arsenals:
Benicia, Calif. arsenal wharf (unit prices) 199
Associated General Contractors:
Detroit meeting n544
New York State Highway Chapter meets n*851
Automobile weight limit changed in 19 states n850
Awards:
American Institute of Steel Construction honors Moses with Kimbrough medal n*537
Daniel W. Mead Prize of A.S.C.E. awarded to New York University student n614
Merit award for construction workers .. n778

* Illustrated; a, abstracts: e, editorials; l, letter; n, news

B

Barges—see Ship building

Beams

Code change urged for high yield-strength bars, N.Y.C. n60
Creosoted laminated beams. W. A. Oliver 87
Des Moines hangar designed with hollow concrete girders *589
Designing reinforced-concrete beams with variable moments of inertia. C. A. Ellis *660
High strength reinforcing. E. E. Seelye 1 78
Limited deflection of floorbeams. Paul Hessemer 896
Notation system for indicating steel in reinforced concrete (Building Designers' Library) *511
Substitute for plate girder. J. F. P. Tate *513
Welded beam connection standards. V. P. Saxe 1 637

Blasting

Buffer base for blasts. F. R. Cozzens. *115
Cutting off concrete piles with dynamite charges 514
Foolproof blasting switch. P. C. Ziemke. *896
Bombing—see Air raids

Bonds:

Birmingham to vote on big water bond issue n624
Houston citizens approved record city bond issue n546
Book rack from coat hanger. J. M. Wolfe. *244

Book Reviews

A.C.I. manual of concrete inspection. 315
Air raid defense (civilian). Curt Wachtel 316
Air raid precautions 316
Boulder Canyon property. P. L. Kleinsorge 748
Colorado conquest. D. O. Woodbury 900
Control leveling 315
Design of modern steel structure. L. E. Grinter 900
Drainage and flood-control engineering. F. W. Pickles 182
Engineering profession. Hoover & Fish 449
Fares please! from horse-cars to streamliners. J. A. Miller 182
Fluid mechanics and statistical methods 899
Foundations of bridge and buildings. Jacoby & Davis 899
Highway curves. H. C. Ives 608
Horizontal control data 315
Introduction to meteorology. Sverre Petterssen 748
Manual of reconnaissance for triangulation 315
Materials testing. Gilkey, Murphy & Bergman 608
Municipal management. T. H. Reef 315
National Technological Civil Protection Committee 449
Pickwick Landing project and the Guntersville project 316
Practical ship production. A. W. Carmichael 182
Principles of sewage treatment. Dr. Willem Rudolfs 182
Railroad problem and its solution. J. E. Muhlfeld 315
Sanitary engineering. H. G. Payrow 449
Strength of materials. J. W. Breneman 608
Strength of materials, pt. 2. S. Timoshenko 748
Testing and inspection of engineering materials. Davis, Troxwell & Wiskocil 608
Theory of simple structures. Shedd & Vawter 899
Traffic accidents and congestion. Maxwell Halsey 449
Traffic engineering handbook, ed by Hammond & Sorenson 748
Water treatment. G. V. James 608
Borings for subsurface exploration. I. V. A. Huie *294
Boundary of Mexico-U. S. shown in relief model n*324
Bricks—see Construction materials

Bridge Accidents and Failures

Army maneuvers cause bridge collapse, Campti, La. n*405
Florida automobile driver fined for bridge accident n408
Hartford bridge collapse n*837; e864
Indiana trestle burns n319
International suspension bridge across the Rio Grande collapses n695
London bombed bridge replaced by repairmen *273
Montreal—Beauharnois tailrace collapses n139
New London, Conn. bridge pier cofferdam collapses n257
Sault Ste. Marie, Mich. bascule span collapses under locomotive n475
Sault Ste. Marie, Mich. bridge is damaged less than anticipated n*539
Sault Ste. Marie, Mich.—cause of failure not determined n*626
Tacoma-Narrows bridge accident—see Bridges, Bridge Design

Bridge Construction

European welded bridge construction. LaMotte Grover *166
How German military engineers rebuilt Norwegian bridges 874
Pile-driving formula. W. H. Rabe. *892
Trestle deck is made of old rails. *896

Bridge Design

American Institute of Steel Construction announces competition n400
Cableway bridges tried out by the Army *491
Continuous steel girder bridge rigidly connected to pier tops, Calif. Leonard Hollister *106
Handrail design meets requirements, Oregon bridge *606
Highway bridge handrail practice in the South. W. E. Barker *126
Intercepts on skewed piers. H. H. Johnson *313
Railway cantilever bridge, Kettle Falls, Wash., center span is fixed and suspended spans at ends. J. A. Wineland *718; e712
Suspension bridge stability. D. B. Steinman 1*863
Suspension bridge models to be tested by University of Washington Laboratory. F. B. Farquharson 37; e10
Suspension bridges and wind resistance. Modjeski & Masters *565
Tacoma Narrows bridge design. C. O. Harrison 1 343
Tacoma-Narrows bridge report—comments. D. B. Steinman 1 207

Bridges

Ashland-Coal Grove bridge is made toll free n272
Australia:
Suspension bridge anchored in clay. M. G. Dempster *485
Beaumont, Tex.:
Neches River bridge opened to traffic n*705
California highway bridge:
Continuous steel girder rigidly connected to pier tops. Leonard Hollister *106
Catawba River, S. C.—new highway bridge n*329
Charleston County, S. C. purchases bridge over Cooper River n531
Chicago:
State Street bridge in construction. n*124
Cincinnati:
J. A. Roebling's bridge built in 1867 is an answer to suspension bridge design. Modjeski & Masters *565
Conneaut, Ohio:
Railway viaduct reinforced by welding. G. G. Landis *164
Eagle River, Colo. longest arch bridge in state opened n*320
Fort Lewis, Wash.:
Timber-truss overpass across highway *847
Friar Point, Miss. bridge time extended n128
Grand Coulee Dam:
Highway bridge now spans spillway. n*842
Greenville, Miss. tolls for first year. n531
Hartford bridge:
Collapse of steelwork. n*837; e864
Highway bridge in construction. n*525
Priority given for steel. n273
Hidalgo-Reynosa bridge:
Reconstruction of suspension bridge. J. W. Beretta *890
Highway bridges built in 1940. n851
Indiana highway bridge shows safety progress n*454
Jacksonville, Fla.:
Main Street bridge opened. n*75
Kentucky River:
Highway bridge bids opened. n273
Toll revenues increase. n454
Kettle Falls, Wash.:
Unusual cantilever bridge. J. A. Wineland *718; e712
Louisville:
Tolls rise 110 percent. n695
Marshall Ford bridge:
Spillway bridge preassembled and pulled into position. J. E. Walters. *840
Miami, Fla.:
Bascule bridge (unit prices) 516
Michigan:
Causeway (unit prices) 700
Wide highway bridge n*755
Montana bridge and approaches (unit prices) 853
Montreal-St. Hyacinthe, Que.:
New bridge replaces ferry n*634
New London, Conn.:
Land piers for high-level bridge. n*399
Pier cofferdam collapses n257
Priority given for steel n273
New York City:
Gowanus Parkway bridge, Brooklyn. n*459
Ocean City, Md.:
Piles driven into place n190
Ohio:
Highway bridge faced with brick. n*453
Highway bridge removed with new span in use n*547
Modernizes a railroad overpass n*776
Oregon highway bridge handrail design meets requirements *606
Philadelphia:
Delaware River bridge sets traffic record n458
Pit River bridge:
Big pins go into place. n*122
Canvas tent will house deck paving job n829
Closure operations on double deck. n*764
Portsmouth, N. H.-Kittery, Me. bridge
Snare firm receives award in suit. n632
Rainbow Bridge (Niagara Falls):
Arch bridge supported by cable system during construction. *288
Fire slightly damages bridge n531
To be opened to traffic Nov. 1. n*629
San Francisco-Oakland Bay bridge:
Five years of operation n736
Insurance brokers hesitate about assuming policy n342
St. Georges, Del.:
Steel tied-arch four-lane bridge. n*187
Santa Paula, Calif.:
Hollow girder bridges. H. M. Hadley 178
Seattle:
Lake Washington bridge temperature indicated by rocker arm *42
Lake Washington bridge tolls exceed year's debt n260
Lake Washington bridge tremie for placing rock *42
Lake Washington pontoon bridge traffic heavy n124
South Dakota long span highway bridge n*778
Steubenville, Ohio:
Ailing suspension bridge restored. Steinman & London *359
Switzerland:
Berne four-track bridge completed. n*536
Tacoma Narrows:
Cantilever design studied to replace suspension n132
Contractors claims upheld by supreme court n63
Design studies advance for new bridge n458
Insurance case settled by Bridge Authority n261
New bridge model to be tested. n778
Permit sought for building new bridge n474
Plan for new span authorized. n56
Report on bridge—comments. D. B. Steinman 1 207
Salvaging steel from wreck raises problem n618
Steel to be salvaged for scrap. n777
Suspension bridge design. C. O. Harrison 1 343
Trial starts next month. n186
Vermont highway overpass (unit prices) 199
Washington, D. C.:
Highway overpass provided by railways n*707
Building accidents and failures:
Explosion at Iowa Ordnance Plant, Burlington n858
Building Congress & Exchange of Baltimore:
Merit award for construction workers. n778

Building Construction

Boeing Aircraft plant built of timber, B. C. *482
Bomb design—see Building Design and Air raids
British war building delayed for many reasons n465
Community centers in defense areas receive funds n325
Community centers receive ratings ahead of civilian orders but behind defense n263
Defense:
Demands cause a building boom (chart) 575
Defense-developed buildings *573-604
Work program's first projects approved. n256; more projects approved n395
Factories for defense:
Ford plane engine plant sets new precedents *158
Packard adds a plane engine plant. *354
Wright plant sets new size record. *16
Factories for the future e280
Fire tests of partitions 651
Forming details and practices for architectural concrete. A. J. Boase (Buildings Designers' Library) *240
New York apartment house has sixteen concrete stories, six of steel. *419; e414
Pneumatically placed concrete for walls of industrial plants. J. Q. A. Greene (Building Designers' Library) *435
Rahway River Park, N. J.:
Defense housing job-comments. C. F. MacEvoy *800
Defense housing job speeded by precut lumber *798; e784
Recreation centers for soldiers to be constructed by Quartermaster Corps. n475
San Pedro, Calif. Navy warehouse construction speeded by precast concrete framing units e879
Shipfitters shop, U. S. Navy constructed of welded rigid frames *587
Westinghouse fluorescent lamp plant completed in five months *34
Wetted brick make tighter walls 314

Building construction—see also Air raids, Housing

Building Design

Aerial bombardment protection. Wessman & Rose, *300; e281; W. L. Huber 1479

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Building Design—continued

Blackout plant built by Allis-Chalmers in Milwaukee, Wis. n*685
Bomb resistance of steel and concrete buildings 157
Bomb shelters for the home. Odd Albert l 711
Buildings designed against bombs. Lewis, Wheeler l 343
Buildings under bombing, Great Britain. O. Bondy *214
Controlling building appearance. T. I. Coe l 207
Defense-developed buildings *573-604
Defense housing and factories as presented in ENR articles 598
Designing to save steel. A. H. Brewer (Building Designers' Library) 669
Domed roof building circular of the Chicago Bridge & Iron Co. n*548
Dome roofed windowless steel-plate Chicago plant employee restaurant *646; e638
Hangars of concrete with thin barrel-shell-roof design built by the Navy. *786
Igloo construction records fought for by contractors n465
Igloo design for storing high explosives, Kingsbury Ordnance Plant. *216
Igloos for munitions storage, Anniston, Ala. *392
Igloo houses, Fairfax County, Va. showing inflated rubber forms used in construction n*757
Igloo of sheet piling for powder storage n*698
Structural problems in bomb protection. Wessman & Rose *349

Building Designers' Library

Designing to save steel. A. H. Brewer 669
Economics of air conditioning and basic data for cost estimating. R. E. Cherne 112
Forming details and practices for architectural concrete. A. J. Boase *240
Heating industrial buildings with direct-fired units. H. A. Pietsch *363
How to prepare drawings for structural welding. LaMotte Grover *310
Lighting principles and practice with glass block panels. D. A. Bridges *29
Notation system for indicating steel in reinforced concrete *511
Pneumatically placed concrete for walls of industrial plants. J. Q. A. Greene. *435
Principles of ventilation by wall and monitor windows. E. W. Conover *176

Building Laws and Regulations

Chicago business organizations request revision of building code n858
Code change urged for high yield-strength bars, N. Y. C. n60
Extravagant building codes e210
Good advice on building codes. C. W. Killam n279
Illinois and New York expedite slum clearance by new state laws 236
Milwaukee building code to be revised. n464
New York code changed for high strength bars n325

Buildings

Akron:
Goodyear Aircraft Corp. defense plant rushed n*458
Arkansas:
Camp Robinson sports arena for Army's off hours, *582; correction 637
Arlington, Va.:
Army's new headquarters building. *600
Atlanta, Ga.:
Georgia Power completes addition to plant n619
Baltimore, Md.:
Glenn L. Martin airplane plant roof truss innovations *729
Beloit, Wis.:
Diesel engine plane for U. S. Navy to be constructed n777
Berkeley, Calif.:
University of California building structure for atom smasher n*696
Bethesda, Md.:
Naval hospital three-fourths complete n*55
Naval Medical Center uses precast facing. H. C. Fischer *576
British Columbia:
Boeing Aircraft plant built of timber *482; e481
Brooklyn, N. Y.:
Navy Yard storehouse and office building construction n*331
California:
Hamilton and March Fields instrument buildings *593
Charlestown, Ind.:
Nation's largest powder plant built in 9 months n*188
Chicago:
Circular dome roof employees building of the Chicago Bridge & Iron Co. n*548
Dome building of steel-plate for Chicago Bridge and Iron employees restaurant *646; e638
Cincinnati, Ohio:
Wright Aeronautical sets new size record with airplane engine plant *16
Columbus:
Warehouse for Army built in 36 days n*339
Dearborn, Mich.:
Ford Motor Co. airplane plant at River Rouge *158
Denver:
Ordnance plant opened ahead of schedule n*692
Des Moines:
Hangar designed with hollow concrete girders *589
State office building approved n464
Detroit:
Packard adds a plane engine plant. *354
Packard's Rolls-Royce airplane engine plant dedicated n*203
Woolworth addition—backhoe digs sub-basement *314
East Farmingdale, N. Y.:
Republic Aviation builds modern plant to make Army planes n*614
Evanston, Ill.:
Northwestern Technological Institute structure n*201
Fairmont, W. Va.:
Westinghouse fluorescent lamp plant completed in five months *34
Fort Devens, Mass.:
Shops to keep a motorized army rolling *596
Fort William, Ont., Can.:
Cable-supported roof for grain storage *882
Fort Worth, Tex.:
Bomber assembly plant *601
Bomber plant steel framework completed n*760
Hartford, Conn.:
Bellevue Square housing development uses steel pan forms for concrete floor slabs *24
Kansas City, Mo.:
Chemical storage building (unit prices) 184
Lawrence, Kansas:
University of Kansas research laboratory walls of soil-cement blocks. W. C. McNown *812
LaPorte, Ind.:
Kingsbury Ordnance Plant construction directed by two-way radio *216
Massena, N. Y.:
Aluminum Co. plans plant addition. n634
Milwaukee, Wis.:
Allis-Chalmers builds first blackout plant in that city n*685
Milwaukee, Wis.:
Post office structural steelwork is welded *244
New Brunswick, N. J.:
Johnson & Johnson's new laboratory has marble walls n*467
New York City:
Apartment house has sixteen concrete stories, six of steel *419
Brooklyn Navy Yard housing speeded by night concreting n*400
Brooklyn Navy Yard warehouse—drilled-in caissons with heavy H-cores carry 16 stories. C. B. Spencer *431
Criminal Court Building and City Prison dedicated n*74
Hospital is removed and reconditioned, n*336; correction 399
Squibb & Sons building in Brooklyn requires unusual foundation work. *488
Panama:
Engine repair shop, airfield *574
Philadelphia:
Westinghouse starts steam turbine plant n128
Portland, Ore.:
Plant for prefabrication of timber materials n*635
Puerto Rico:
Depot supply building for air base. *574
Quonset Point, R. I.:
Navy mess hall design *584
Sandusky, Ohio:
Production starts Nov. 15 at ordnance works n*618
San Francisco:
Four-story underground parking space. *714
San Pedro, Calif.:
Navy warehouse construction speeded by precast concrete framing units. *879
Warehouse concrete beams turned by steel yokes *897
Seattle:
Boeing Aircraft plant addititon uses roof trusses of 300-ft. span *652
Shipfitters shop, U. S. Navy constructed of welded rigid frames *587
Tulsa, Okla.:
Bomber assembly plant *601
Washington, D. C.:
Social Security Board office building. *590
Social Security Board building—notation system for indicating steel in reinforced concrete (Building Designers' Library) *511
Temporary office buildings erected. n*456
War Department building may not be built n271
War Department building well under way n*693
War Department office building design n*267
War Department office building plan has been killed n336
Watervliet, N. Y.:
Arsenal furnace pit walls employ sliding forms in construction *226
Wichita, Kansas:
Boeing plant addition started n*390
Wilmington, Del.:
Delaware Hospital kept in service while additional buildings are constructed n*686
Windsor Locks, Conn.:
Hangar-repair shop for the Air Corps. *580
York, Pa.:
Skating rink—roller skates aid in erecting arches *818
Ypsilanti, Mich.:
Ford bomber plant to cover 58.5 acres n*186

Buildings—see also Airplane plants, Air raids and Protection, Housing, Moving

Bulkhead, steel, New York City (unit prices) 700

C

Cableway bridges tried out by the Army. *491

Caissons

Brooklyn Navy Yard warehouse—drilled-in caissons with heavy H-cores carry 16 stories. C. B. Spencer *431
Merriman Dam, Delaware Aqueduct, concrete core wall laid on twenty caissons *426
Open-steel caissons for cast-in-place piles, Buffalo, N. Y. G. B. Sowers. *717
Panama Canal deep-draft caisson is built on the Ohio River. M. M. Lachowski *486

Camps—see Housing and Buildings

Canals

Contra Costa Canal—section in operation n320
Intracoastal Canal work nears completion n769
Panama Canal:
Appropriations for third locks n855
Cement for lock system ordered n274
Deep-draft caisson built on the Ohio River. M. M. Lachowski. *486
Gatun locks design and specifications ready n695
Gatun locks to be built nearer Gatun Lake n195
Moving a 200-ton dredge overland to lock site *721
Vehicular tunnel may be built n454
Thames River, Eng. canalizing opposed as impracticable 111
Yakima Ridge Canal, Wash.:
Earthwork, pipelines (unit prices). 469
Carey, William F., commissioner of N. Y. C. sanitation, becomes utility executive n265

Cement

Cement-treated road bases, Calif. (table) 175
Conveyor moves sacked cement from ship to warehouse *296
Dispersion of cement and concrete quality. E. W. Scripture, Jr. *804
Silo contents measured by strain in steel tower legs, Shasta Dam *98
Specifications for cements purchased by the government effective in November n204
Soil-cement blocks for walls of university research laboratory. W. C. McNown *812
Chicago Ground Hog Club elects new officers n*767

Chimneys

Franklin, Pa., stack 310 ft. high demolished n*860

Cities:

City-owned utilities will "pay taxes" this year in Glendale, Calif. 494
Running British cities in war time 32
City-size job for a village, Charleston, Ind. *19
Civil service benefits and limitations 114
Columns:
Glenn L. Martin airplane plant columns weighing 520 lb. per ft. designed to support lateral load of 100x66 ft. wall *729

Concrete

Air content of concrete. M. A. Swayze. 89
Airport paving concrete shows increase. 371
Barges of concrete considered n538
Barges of concrete ordered built for oil shipments n319; e344
Barges of concrete ordered by Maritime Commission n693
Barges of concrete to be built in limited quantities. n545; correction 622
Barges and ships of concrete built by Great Britain n276
Bellefontaine, Ohio, first concrete paving 50 years old. Tracy Bartholomew, *297; e280; correction l 479
Bethesda, Md. Naval Medical Center uses precast concrete facing. H. C. Fischer *576
Cement dispersion and concrete quality. E. W. Scripture, Jr. *804

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Sales tax has to be paid by contractors on defense work n95
Supreme Court backs taxes on defense materials n*889
Taxation of federal contractors a problem to U. S. Treasury n*845

Contracts

Defense contracts set all-time high ... n55
E.N.R. engineering construction contracts ..9, 68, 77, 136, 147, 198, 206, 268, 277, 318, 332, 342, 401, 412, 468, 478, 540, 550, 627, 636, 699, 709, 771, 781, 852, 862, 914
Lack of written contract causes engineer to lose fee. S. I. Sacks 307
Trade restraint found on electrical contracts, New York City n472; e480
War Department adopts new form for fixed-fee contracts 82
Copper determinations in water and sewage 440
Copper placed under 100 per cent priority control n186
Corrosion tests of irons and steels 95
Crib wall model tests indicate new design assumptions required. C. U. Prout. *667
Crib wall—re model tests. Jacob Feld .. 1 782
Cruise, Gerald V. named to New York Power Authority n266
Culvert headwalls removed to prevent accidents *115

D

Dalstrom, O. F. retires as Northwestern Ry. bridge chief ..... ?

Dams

Alder Dam, Wash. to be built n321
Anderson Ranch Dam:
Construction of dam and power plant (unit prices) 318
On priority list n411
Angostura Dam, Mexico:
High arch dam on the Yaqui River. *734
Berlin Dam:
Construction funds requested by the President n707
Construction recommended n538
Blue Mountain Dam:
Diversion tunnel to be completed by surety company n395
Bluestone Dam:
Plans and specifications completed .. n760
Boise River, Idaho:
Highest earthfill dam to be built n256
Bonneville Dam:
Fifth generator installed n390
More transmission lines requested .. n685
Power house being extended for four new generators n*406
Boulder Dam:
Lake Mead spills for first time n*256
British Columbia:
Temporary support for penstock to be embedded in concrete dam *556
Bulls Head Dam now to be known as Davis Dam n324
Bull Shoals Dam:
Foundation exploration to be started. n770
Chatuge Dam, N. C.:
Core drilling underway n*205
Cherokee Dam:
After one year of construction n*335
South American diplomats, army and navy men visit dam n*190
Clearwater Dam:
Outlet works completed n*758
Work to start next month n147
Damsite exploration by offset shooting. R. M. Strohl *110
Davis Dam:
Name changed from Bulls Head Dam n324
On priority list n411
Deer Creek Dam:
To be completed this month n*185
Denison Dam:
Concreting completed in outlet works n*538
Stilling basin completed n*129
U. S. Engineers take over road work n912
Dnieper River Dam:
Destruction of dam reported ... n321; e344
Douglas Dam:
Appropriation not authorized n855
Elephant Butte Dam:
Spillway overtopped for first time ... n134
Fern Ridge Dam:
Dedication of dam n839
Fontana Dam:
Money to start dam requested n407
TVA to build dam and distribute Alcoa power n255
Tennessee Valley Authority starts dam n904

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Dams—continued

Fort Loudoun Dam:
Concrete placing started for lift lock n*461
French Broad River dam appropriation requested n417
Friant Dam:
Absorptive form lining tests *884
Derrick boom aids carpenter work *116
Gold recovery at dam n197
Insulated trash burner simplifies cleanup *313
Siphon to deliver water for storage .. n*128
Strong-backs and ringbolts aid in moving assembled forms *447
Washing tray for maintenance of equipment *43
Water storage begun Oct. 20 ..... n615
Glenville Dam:
Dedication of dam n*623
Nearly ready to generate power n*255
Granby Dam:
Bids rejected as being too high n472
Bids to be opened n266
Construction delayed second time ... n688
Construction of dam and dikes (unit prices) 516
Grand Coulee Dam:
Cranes set a 527-ton rotor n*265
Dam is nearing completion *365
Diversion and outlet tunnel (unit prices) 820
Gantry crane handles heavy gates .. n*196
Highway bridge now spans spillway . n*842
Hydraulic jacks lower gates into place *447
Trashrack and drum gate de-icers ... *108
Washington Water Power loses suit for damages n458
Workers photographed n*133
Working model of dam to be built .. n190
Grand River Dam:
Federal Works Administrator takes over dam n760
Green Mountain Dam:
Field density test holes measured by using oil. Stephen Poe *814
Hales Bar Dam:
Stopping the flow of the Tennessee River under the dam *654; e638
Hiwassee Dam:
Concrete forms of Hiwassee type. J. E. Walters ..... l 711
Jim Falls Dam dynamited to save power plant n*337
John Martin Dam (Caddoa Dam):
Rapid progress n*197
Kanapolis Dam:
Kansas engineers inspect dam n*61
Kentucky Dam:
TVA builds temporary lift span n*902
Keswick Dam:
Concreting soon to start n540
Construction (unit prices) 469
Excavation is about complete n*901
First concrete is poured n764
Kingsley Dam:
Dedicated after six years work n196
Dedication ceremonies n74
Hydraulic fill work nearly complete . n*257
Knightville Dam:
Hydraulic fill methods. W. L. Maschmeyer *808
La Grande Dam, Wash. to be built n321
Lois River Dam, B. C.:
Arch dam for hydro power n*275
Transferring sacked cement from ship to warehouse *296
Mahoning Dam:
Cantilever forms used and compared with pipe strut type form. K. C. Cox *554
Completed a year ahead of schedule . n*65
Design—correction. W. E. Sidney .... l 783
Marshall Ford Dam:
Spillway bridge preassembled and pulled into position. J. E. Walters. *840
Merriman Dam:
Cutoff wall of concrete *426
Heavy articulated roller for fill n*913
Mud Mountain Dam:
Diversion tunnel portal shored up with steel beams *377
Earth and rock fill placed under canvas tent *282
Fill completed to record height n904
Now 250 ft. high n*408
Tent used to protect earth core to be used for another project n*839
Valves to control flow n*7
Newton Dam, Utah:
Work underway n395
Nimrod Dam:
Arkansas flood-control dam to be completed next month n*613
Norfork Dam:
A-3 priority rating for materials n464
Parker Dam on priority list n411
Pinopolis Dam:
Mortar guns for dry packing small patches on dams *43
Rockland Dam:
Bids to be called for n619
St. Lucie Dam, Fla.:
Construction (unit prices) 541
San Gabriel Dam:
Tapered trash rack bars. Paul Baumann *115
San Vicente Dam:
Bids for dam to be called n197
Construction (unit prices) 628
Santa Fe Dam:
Earth-fill dam construction (unit prices) 380
Santee-Cooper Dam:
Power to be turned on Dec. 31 ..... n780
Shasta Dam:
Concrete work started in river section n*389
Lowest bedrock uncovered n*756
Pit River bridge deck paving job to be protected by canvas tent n839
Pit River bridge pins go into place . n*123
Pit River bridge closure operations n*764
Portable drinking foundation *514
Strain in steel tower legs measures cement silo content *98
South Holston Dam:
Tennessee Valley Authority starts dam n904
Vallecito Dam:
Completion of dam n397
Wallace Lake Dam, La. construction (unit prices) 452
Wappapello Dam:
Flood dam to be dedicated July 4 .. n8
Watauga Dam:
Tennessee Valley Authority starts dam n904
Wolf Creek Dam:
Access road to dam is tough job . n*684
Wolf Creek Dam:
Construction (unit prices) 269
Design office data should be classified. W. F. Wiley *308
Dikes:
Dikes and Granby Dam construction (unit prices) 516
Hartford, Conn. flood dike slumps from foundation failure n*142
Diving tower, all-welded *513
Douglas, Walter J., dies, New York consulting engineer n*63
Drawings prepared for structural welding. LaMotte Grover (Building Designers' Library) *310
Dredges and dredging:
Hydraulic dredge removes last barrier in Wax Lake relief outlet for Atchafalaya River n*907
Puerto Rican court holds cancellation of contract for dredging unwarranted. 645
Tests on dredge pumps to find effective lift 502
Drills and drilling:
Hales Bar Drum—making impervious concrete cutoff wall at dam *654; e638
Drinking fountain, portable *514
Drydocks:
Blue ribbon for drydocks e712
Navy graving dock built offshore in the dry. E. C. Seibert *871
Philadelphia drydock approaches keel laying stage n*537
San Diego, Calif. drydock concreting by belt conveyor *736
San Diego drydock site unwatered by well points *39; e10
Vertical-lift drydock for small boats. Daytona Beach, Fla. L. A. Francisco *658

E

Earth Fill

Knightville Dam built by hydraulic-fill. W. L. Maschmeyr *808

Earthquakes:

Santa Barbara, Calif. has small earthquake n*60
Torrance, Calif. quake damages property n703
Tucson, Ariz. elevated tank is earthquake-resistant *742
Wall resistance during bombing and earthquakes. W. L. Huber ..... l 479
Water systems and earthquakes. C. G. Hyde 496
Earth wall properties and uses are tested 886
Electric motors:
Vacuum cleaner defogs locomotive motors. Guy Bartlett 243
Electrical applications:
Traffic signal makers get trade restraint charge n537
Electrical heating for trashracks and drum gates at Grand Coulee Dam *108

Engineers

British engineering teaching under war conditions ..... l 782
Engineering curricula accredited in 129 schools n779

Carderock, Md. Navy's ship model testing basin n*58
Funds asked for construction by Navy... n61
Shirley, Henry G. dies, Virginia highway head n*124

Shore Protection
Breakwater, Washington (unit prices).. 754
Bulkhead for Marine Park, N. Y. C. (unit prices) 700
Corpus Christi seawall and waterfront development *346
Timber deflectors prevent bank scour near Scotia, Calif. *154
Wellsville, Ohio flood wall (unit prices) 138
Shotcrete—see Concrete
Sled carries floodlights..... *672
Sluicing silt from Upper San Fernando reservoir *20
Snow—see Hydrology
Society for Promotion of Engineering Education:
Ann Arbor meeting..... n57

Soil Mechanics
Chemical joint sealing and soil solidification. S. M. Riedel, *222; e210; J. J. Polivka..... l 551
Chicago subway open-cut sections studied for information on soil-pressures. Knapp & Peck..... *735
Classification system for composite soils. D. M. Burmister..... *171; e148
Classifying soils. F. B. Campbell..... l 413
Green Mountain Dam earthfill density measured by using oil. Stephen Poe..*814
New York City's department of Public Works operates a subsurface exploration service. I. V. A. Huie..... *294
Offset shooting for foundation exploration. R. M. Strohl, *110; correction. l 551
Somervell, Gen. promoted to general staff of Army n776
Stanford University Hoover Library on War dedicated n*2

Steel
Canadian steel standards revised for buildings n851
Cleaning steel for painting railway structures 659
Corrosion tests of irons and steels... 95
Cost of flame cleaning. C. M. Burpee ..... l 783
Designing to save steel. A. H. Brewer (Building Designers' Library)...669; e638
Designing to save steel. F. H. Frankland ..... l 710
Distribution to be gradually shifted to an allocation instead of priority rating n635
How fatigue values vary. H. F. Moore 88
Lehigh University opens steel research fellowship n767
List of steel shapes to be restricted... 622
OPM asks for increase in Bessemer steel capacity n202
OPM order grants high rating to deliveries of steel to warehouses..... n340
Output to be aided by simplification...n461
Plate steel subjected to full allocation..n778
Priority control for all steel..... n202
Rail salvage program..... n397
Redesigning to save steel needs time. M. S. Ketchum..... l 863
Structural steel orders for 1941..... n187
Supply, Priorities and Allocation Board plans steel production increase (table) n475
Tacoma Narrows bridge steel to be salvaged for scrap..... n777
Tests of structural alloys. Johnston & Opila 87
WPA plans rail removal to provide scrap steel 509

Street Traffic
Demountable overpass tried in Atlanta traffic experiment n*395
"Parking authority" proposed at Jamaica, N. Y. n692
Parking problems 369
Plymouth, Mich. provides free parking lots n698
San Francisco is building four-story underground parking space..... *714
Underground parking aids traffic handling in Buenos Aires. F. A. Zamboni *569
Traffic signal makers get trade restraint charge n537
Streets:
Philadelphia to spend $50,000,000 for street work n*765

Structural Design
Air raids:
Aerial bombardment protection. Wessman & Rose, *300; e281; W. L. Huber, l 479; correction Wessman....l 637
Buildings designed against bombs. Lewis, Wheeler ..... l 343
Structural problems in bomb protection. Wessman & Rose..... *349
Boeing plant addition, Seattle, used roof trusses of 300-ft. span.....*652; e638
Bracing design. G. L. Strehan..... l *278
Brickwork as seen by the engineer. E. E. Seelye..... *724
Defense-developed buildings *573-604
Design changes and economy. M. V. Pregnoff ..... l 209
Designing reinforced-concrete beams with variable moments of inertia. C. A. Ellis *660
Designing to save steel. A. H. Brewer (Bulding Designers' Library)....669; e638
Designing to save steel. F. H. Frankland ..... l 710
Dome building of steel-plate for Chicago plant employee restaurant....n*548 *646; e638
Intercepts on skewed piers. H. H. Johnson *313
Limited deflection of floorbeams. Paul Hessemer 896
Glenn L. Martin airplane plant roof truss innovations *729
New York apartment house has sixteen concrete stories, six of steel..... *419
Redesigning to save steel needs time. M. S. Ketchum..... l 863

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

Structural Design—continued
Substitute for plate girder. J. F. P. Tate *513
Suspension bridge models to be tested by University of Washington laboratory. F. B. Farquharson 37; e10
Suspension bridges and wind resistance —Roebling's Cincinnati bridge. Modjeski & Masters.....*565
Table of fixed-end moments. C. J. Posey 671
Tacoma-Narrows bridge report—comments. D. B. Steinman.....1 207
Westinghouse fluorescent lamp plant completed in five months..... *34
Subways:
Chicago subway contract recognizes rising costs n453; e481
Chicago subway open-cut sections studied for information on soil-pressures. Knapp & Peck.....*739

Surveys and Surveying
Finding tangent slopes on highway vertical curves. W. E. Cooper.....*377
Highway spirals conveniently mapped by templet. T. R. Hartrampf.....*605
Michigan map, the largest and most complete n*543
Military maps are being prepared by the Corps of Engineers..... 23
New United States map available.....n527
Offset shooting for foundation exploration. R. M. Strohl, *110; correction..1 551
Portable instrument tower. R. K. Maud *313
Rod to determine "bow" in pile. T. R. Smith *313
Tangent distances for runway intersections. J. L. Grimes, Jr.....*817
Underground services in Lowell, Mass. mapped for emergency needs. Stephen Kearney *31
Swimming pools:
New York World's Fair Aquacade site is transformed into swimming pool..*234
New York World's Fair diving tower, all-welded *513

T

Talbot, Arthur Newell honored with tablet for track research work.....n*624
Tank, 60-ton n*855

Tanks and Standpipes
Oil tank sled-mounted.....*378
Paper company installs two thin domed concrete reservoirs n*195
Shawneetown's water tank takes a ride to new site.....*179
Standpipe for filling tank truck..... *41
Tucson, Ariz. elevated tank is earthquake-resistant *742

Taxation
City owned-utilities will "pay taxes" this year in Glendale, Calif..... 494
Contractor taxation a problem to U. S. Treasury n839
Contractors on defense work liable for sales tax n65
State of Louisiana entitled to collect taxes on petroleum used by contractors on army cantonment work.....n614
Supreme Court backs levy on defense materials n689
Telegraph and railroad line relocation, Idaho (unit prices)..... 333

Tennessee Valley Authority
Appropriations for dam construction requested n407
Emergency program to meet growing needs of defense industries. T. B. Parker *866; e865
Hageman, chief design engineer resigns n75
Leonard made engineer on Hiwassee projects n145
Lilienthal designated as chairman.....n408
Rains reduce danger of power shortage n63
Tennessee Valley Authority—see also Dams

Tractors
Hauling reinforcing steel cage with tractor *672
North Carolina highway equipment use and salvage. B. W. Davis.....*512
Track moving by tractor bulldozer...*672

Trailers
Defense housing trailers.....n*272
Emergency housing in trailers presents problems 221
Michigan enacts new trailer law.....n614
Trailer camp at Charlestown, Ind..... *19
Trailers—also see Housing, defense

Trucks
Interstate Commerce Commission seeks to control size and weight of trucks..n261
Inventory of all trucks in the country to be taken..... n75
North Carolina highway equipment use and salvage. B. W. Davis.....*512
Weight limit changes in 19 states.....n850

Tunnels
Bankhead Tunnel, Ala:
Paying its way.....n397
Revenues reach new high.....n146
Traffic heavy during July.....n277
Blue Mountain Dam:
Diversion tunnel to be completed by surety company n395
Canadian railway tunnel in service 50 years n463
Carlton Tunnel:
Complete after two years of work, *140; correction 277
Vacuum cleaner defogs locomotive motors. Guy Bartlett..... 243
Cleveland pedestrian tunnel (unit prices) 700
Continental Divide Tunnel:
Work ahead of schedule..... n65
Delaware River Tunnel:
Lining the world's longest tunnel...*792
e784
Tunneling nearly completed.....n411
Delaware River Tunnel, N. J. refused as a defense project.....n399
Draper-Alpine Tunnel:
Last concrete lining on tunnel.....n857
Elton Tunnel:
Grout holds debris in fissure while tunnel goes through..... *41
Granby Dam:
Diversion and outlet tunnel (unit prices) 820
London builds tunnels as bomb shelters n*633
Mud Mountain Dam diversion tunnel portal shored up with steel beams..*377
New York City:
Battery-Brooklyn Tunnel:
Brooklyn tunnels (unit prices).... 46
Field office moved on barges down East River n*905
Manhattan tunnels (unit prices)... 674
Prize winning design for ventilation tower n*410
Radial well will dewater ground..n776
Panama Canal:
Vehicular tunnel may be built under canal n454
Tulelake reclamation tunnel, Calif. lining complete n779

U

Underground services in Lowell, Mass. mapped for emergency needs. Stephen Kearney *31
Unit prices ...46, 122, 133, 184, 199, 246, 269, 318, 333, 380, 402, 452, 469, 516, 541, 612, 628, 674, 700, 754, 772, 820, 853
U. S. Army Engineers:
Construction by and for the Army.....e415
Expansion of Corps reaches new high..n197
Quartermaster Corps construction division is absorbed..... ....n848
Quartermaster Corps construction section may be transferred to U. S. Engineers, n319; n340; to be approved..n760
Quartermaster construction transfer will alter contract letting.....n389
Quartermaster Corps taken over.....n777
Maj. Gen. Reybold assumes command, n261; 465
U. S. Bureau of Foreign and Domestic Commerce:
New construction section set up.....n129
U. S. Bureau of Reclamation:
Appropriations cut due to defense needs n761
U. S. District Engineer Office:
Los Angeles branch to have San Bernardino office n145
U. S. Navy:
Construction contracts shared by 501 contractors n256
Many reserve engineers now active with Navy n539
U. S. Quartermaster Corps:
Absorption of construction division by Corps of Engineers will not effect projects n848

V

Valves:
Pitting action in 12-in. gate valves, San Francisco water supply.....*225
Vault for insurance building, floodproof.. 19
Ventilation by wall and monitor windows. E. W. Conover (Building Designers' Library) *176

W

Wall bracket. C. E. Nightingale.....*116

Walls
Brickwork as seen by the engineer. Oskar Schreier, 1863; E. E. Seelye..*724
Connecticut River flood protection walls at Holyoke completed. C. H. Lovejoy *212
Crib wall model tests indicate new design assumptions required. C. U. Prout *667
Duquesne Way, Pittsburgh, foundation walls (unit prices)..... 402
Earth wall properties and uses are tested 886
Factors in aerial bombardment protection, Wessman & Rose, *300; e281; correction, Wessman 1 037
Fire tests of partitions..... 951
National Bureau of Standards reports on moisture condensation in walls.. 26
Pneumatically placed concrete for walls of industrial plants. J. Q. A. Greene (Building Designers' Library).....*435
University of Kansas research laboratory walls of soil-cement blocks. W. C. McNown *812
Wall resistance during bombing and earthquakes, W. L. Huber.....1 479

War
A.S.T.M. specifications for defense requirements n3
Accident record low on Army construction n779
Air raids—see Air raids
Aluminum prices reduced and new plants to be constructed.....n274; e281
Anti-tank range under construction at Fort Dix n330
Appropriations for defense.....n853
Asphalt and tarred roofing prices frozen n778
Bessemer steel production to be increased n202
Blackout defense methods reviewed in booklet n764
Blackout plant built by Allis-Chalmers in Milwaukee, Wis.....n*685
Bomb shelters—see Air raids
British engineering teaching under war conditions 1 782
British municipal government in war time 32
British war building delayed for many reasons n465
Building trades agree to bar strikes on defense n139; e149
Cableway bridges tried out by the Army *491
Camp Croft, Spartanburg, S. C. provided with emergency sewage treatment. E. A. Smith.....*174
Camp Robinson, Ark. sports arena for off hours, *582; correction..... 637
Camp San Luis Obispo, Calif. beats the mud with heavy equipment for a "permanent tent camp".....*12
Cantonment bids received for four projects n320
Cantonment construction costs high..n263
Cantonment operation. G. F. Lewis... 745
Cantonment program calls for additional funds n703
Cantonment program for the future depends on passage of extended service bill n187
Cantonments to be built in four places.n260
Charlestown, Ind. nation's largest powder plant built in 9 months.....n*188
Civil airport defense work funds (list) 191
Civilian protection organized in Canada. N. J. Howard..... 99
Community centers in defense areas receive funds from FWA, n325; approved by President.....n704
Construction and war.....e864
Construction by and for the Army.....e415
Contract records set all-time high..... n55
Copper and brass prices to be frozen by OPA n615
Copper in building construction will shortly become illegal.....n549
Defense construction already completed exceeds construction expenditures 1914-1918 .....n475
Defense construction appropriations requested by President again..... n71
Defense construction program—as of Oct. 1, 1941 (table)..... 703
Defense-developed buildings *573-604
Defense housing—see Housing
Defense Supplies Rating Plan.....n186
Defense work program's first projects approved, n256; more projects approved n395
Defense Public Works Division organized to serve Texas and Louisiana. Uel Stephens 1 637
Denver Ordnance Plant opened ahead of schedule n*692
Factories for defense.....16, 158, 354
Ft. Bragg, N. C. access road constructed by contractor and WPA labor.....*722
Fort Totten and Floyd Bennett Field have "made ground" of landfill reuse *423
Furds available for armament expenditure n129
Grand Coulee workers photographed..n*133
Highway state work, two Panama highways and strategic network receive priority rating n335
Igloo construction records fought for by contractors n465
Igloo design for storing high explosives, Kingsbury Ordnance Plant.....*216
Igloos for munitions storage, Anniston, Ala. n*392
Igloo of sheet piling for powder storage n*698
Kingsbury Ordnance Plant construction directed by two-way radio.....*216

* Illustrated; a, abstracts; e, editorials; l, letter; n, news

War—continued

Latin-American governments to receive lease-lend funds for military bases..n274
London constructing reservoirs from rubble n*849
London prepares for more air raids...n*472
Londoners store water for fire fighting n*464
Lumber, southern pine, price ceiling set n263
Maintenance and repair work given essential rating by OPM..n203; n615; n704
Manila fiber and cordage put under priority control n320
Massachusetts state emergency plan (chart). A. D. Weston..... 495
Materials shortage theme of Washington conference on construction.....n697
Milwaukee moves to protect vital facilities n859
Mobile ozone water purifier designed for Army camps *807
Mosquito campaign started by Army.. 221
Office of Production Management adds new branch to stabilize building duties n613
OPM construction branch is being reorganized n472
Pacific Island construction men join in defense of bases.....n858
Post-defense needs for highway construction 649
Power needs in the West can be provided by the Bureau of Reclamation n146; e149
Priorities—see Priorities
Public works problems in defense areas. Schnepfe, O'Neill 743
Recreation centers for soldiers to be constructed by Quartermaster Corps..n475
Red Sea area, Iraq and Iran construction work to be done by Americans..n776
Replanning bombed cities of Britain. G. L. Pepler..... 510
Sabotage prevention by federal agencies n849
Sabotage safeguards for water supplies (list) n859
Shanghai war road problems..... 312
Silzcnam or-steel, iron, lead, zinc, copper, nickel, aluminum, magnesium...e281
SPAB's policy on non-defense building clarified by Director Nelson....n545; e553
Steel expansion planned by Supply, Priorities, and Allocation Board (table) 475
Steel shapes to be restricted..... 622
Supply, Priorities and Allocations Board and construction materials.....e344
Supply, Priorities and Allocation Board ruling not a ban on all non-defense construction, n525; comment from construction industry n526
Tank, 60-ton n*855
Tank production for Great Britain to be stepped up.....n463
Underground services in Lowell, Mass. mapped for emergency needs. Stephen Kearney *31
War on the Pacific Coast brings tests of civil defense plans.....n*856
Warehouse for Army built in 36 days..n*339
Water supply troops organized..... 170
Watervliet Arsenal furnace pit walls employ sliding forms in construction.*226
Waterworks protection in New Jersey. H. T. Critchlow..... 99
WPA labor not barred from defense work, according to Hunter claim....n619

Wastes, Industrial

Notes on sewage disposal. Willem Rudolfs 44, 181, 446, 607, 746, 898
Oxygen demand of sulphite waste liquor 648
Recovery of chemicals from pickling liquor 445
Stream pollution control. M. P. Adams 665
Water consumption estimate..... 498
Water mains:
Cathodic protection as a method of preventing corrosion of pipelines. J. C. Keith 101
Cement lining—new and old mains. Schoonmaker, LaDue 101

Water Pollution

Amebic dysentery studies. Chang & Fair 101
Androscoggin pollution declared health menace n685
Androscoggin pollution survey starts..n410
Connecticut becomes a member of the Interstate Sanitation Commission...n390
Elizabeth, N. J. ordered to cease harbor pollution n205
Philadelphia blamed for Delaware River pollution n626
Raritan River, N. J. pollution to be stopped n860
Stream pollution control. M. P. Adams 665

Water Rates

Canadian water rates. A. E. Berry... 102
Meter reading practice in cities..... 425
Municipal water charges to industrial users in New England (table). A. C. King 497
Sewer rental or service charges are in various forms 109
U. S. Housing Authority water rates cause problems 165
What charge for fire protection? C. H. Capen 643
Water rights:
Niagara water diversion agreement...n693

Water Supply

Baltimore water demands exceed safe supply limits n625
Baltimore water service limited by lack of pipe n618
California water district becomes operating utility n330
Census Bureau reports on the water supply service 230
Central Valley Project, Calif. water supply and sewerage systems (unit prices) 452
Charlestown, Ind. powder plant supplied with water supply by radial wells *155
Copper determinations in water and sewage 440
Cross-connection policy recommended at American Water Works Assn. meeting 239
Deficiency of stream flow reported by U. S. Geological Survey (maps)..706, 770
Denver plans addition to West Slope water supply n275
Drinking standards. J. K. Hoskins, J. R. Baylis 100
Drinking water standards up for final revision n903
Everett, Wash. increases storage capacity and improves supply lines to meet water demands *357
Freeport, Ill. demonstrates to customers the importance of faucet leaks.. 243
